1. Introduction

Financial Accounting (Intermediate Accounting II) is a foundation course in accounting. This course seeks to develop your ability to understand and use financial accounting information. You will learn the introduction to generally accepted accounting principles (GAAP) and Financial Reporting Standards in order to prepare and analyze financial statements. You will also develop communicative, critical-thinking, and technological skills through the study of this course. The course is mainly based on the US GAAP, thus it may not be suitable for the Korean CPA exam (K-IFRS).

2. Course Objectives

The content-related objectives will be met by covering the appropriate course material as outlined in the syllabus under the Tentative Schedule. The context-related objectives will be met in the following manner:

?Basic knowledge of accounting: As a core course in the business program, this course is designed to provide a basic knowledge of financial accounting, upon which to subsequently build with managerial accounting concepts in the accounting sequence. It is specifically designed to develop students' abilities in the fundamental preparation, interpretation and analysis of financial statements through an iterative feedback process including classroom analysis, discussion, and ultimately examinations.

?Communicate effectively verbally and in writing: Assignments including practice problems, exams and class participation will all be incorporated into the course to meet this objective.

?Use critical thinking skills to solve real or hypothetical business problems: Throughout the course students will be required to use critical thinking skills to interpret, analyze and/or solve business problems. Problems in the assignments will reflect real or hypothetical business problems.

<경영학교육인증 교과목 학습성과>

K2	Students are capable of analyzing data and solving problems arisen in business/E-business
----	---

	practices. (Applicable Knowledge)

3. Class types and activities

To achieve the above objectives, the course will include lectures, problem analysis and discussion, and quizzes. Certain exercises, problems, and homework assignments will be required to be manually written out (or completed in Word or Excel) and handed in. Regular class attendance and active participation in class discussion is expected. To help assess student progress, quizzes may be administered at any point of the class session, beginning, middle or end. There are no make-up quizzes given. You must be present to take the quiz at the time it is given in class in order to receive a score. Students should resolve possible conflicts early in the term and be prepared to devote at least 8–10 out-of-class hours per week to the course.

4. Teaching Method

- | | |
|--|---|
| <input checked="" type="checkbox"/> lecture | <input checked="" type="checkbox"/> discussion and debate |
| <input type="checkbox"/> team project(presentation and case studies) | <input type="checkbox"/> experiments(role-playing,etc) |
| <input type="checkbox"/> designing and production | <input type="checkbox"/> on-site learning(on-site training) |
| <input checked="" type="checkbox"/> others (Short individual presentation) | |

5. Support Systems in Use

- | | | |

11. Other items of notification

Exams

There are two in-class exams (midterm and final). The dates and times of all exams are indicated in the course schedule of this syllabus. You are responsible for taking all exams at the times indicated.

The majority of exam questions will be taken directly from or slightly modified version of questions which can be found on the textbook, quizzes, and practice questions.

During the examinations, you may use a calculator, subject to the restrictions mentioned by the instructor (financial or scientific calculators). You are not allowed to share a calculator with classmates during the examinations. You must bring your own calculator (I don't have extra!). No other electronic devices such as laptops, cell phones, PDA's are permitted.

Lecture Notes

Lecture notes of each chapter may be posted by the end of Friday before the class week.

*Prerequisite– Principle of Accounting or equivalents
