10. Class system and Class shedule

<p>Economics is all about market. Market is defined as a 'place where supply and demand meets', therefore, understanding of supply and demand is being discussed first before we discuss market. Market is found a good way to organize economic activities. Sometimes, however, market fails. What could be the required policy to remedy this problem?</p> <p>The suggested textbook has a very good organization for the explanation of of such flow. Lecture will basically follow the sequency of given chapter organization.</p>
