りょういき じっせん とお ゆた ひょうげんりょく そうぞうせい みが
領域での実践を通して豊かな表現力と創造性を磨くことができます。

In the Music Education Course, by studying solid music theory and music education, students can cultivate their expressiveness and creativity through practice in the fields of performance (vocal, piano, Japanese musical instruments, wind instruments), musical education/musicology, and music composition.

Child Studies

児童学科では大学開学時より児童学の探究を続け、児童学の4領域（発達・保健・文化・表現）を幅広く学修することを通し、複雑化する現代社会における子どもの問題や、保育について考え実践する人材を育成します。

The Child Studies Department has explored child studies since the opening of the University and aims to develop human resources that can consider and resolve child and childcare issues in an increasingly complex modern society through studying a broad range of four areas of child studies (development, health care, culture, expression).

Psychology

心理学科では心理学研究と現場体験を通して科学的な思考力と応用力、実践力を身につけ、心理学の素養と知識を活かして幅広い分野で活躍する人材を育成します。

The Psychology Department aims to develop human resources who can play an active role in a wide variety of fields utilizing their education and knowledge of psychology, by acquiring scientific thinking, adaptability, and practical skills through psychology research and field experience.

■家政学部 (Faculty of Home Economics)

Food and Nutrition

食物栄養学科では専門基礎科目、専門科目の学習後に、臨床栄養系列、研究開発系列、健康教育系列の3系列のいずれかを選択して、さらに細分化された専門分野を極めることをめざします。

In the Food and Nutrition Department, after learning the basic specialized subjects and specialized subjects, the student can further pursue a more specialized field by choosing one of the three areas of clinical nutrition, research & development, and health education.

Apparel and Space Design

生活造形学科では造形意匠（デザイン）、アパレル造形、空間造形の3領域の基礎を学び、生活を快適にするデザインを追求し、自分自身の専門性を獲得することができます。

In the Apparel and Space Design Department, students will learn the basics in the

three fields of crafts and design, apparel design, and space design, and pursue designs that make human life more comfortable and acquire their own expertise.
